Khroma Collection

verona-architectural.co.uk

Khroma celebrates the expressive power and natural character of the ancestral material from which everything originates: clay.

Clay, a history with ancient beginnings.

The design project began from the origins: clay mixed and shaped with water, compressed and left to dry in wooden moulds. Research laboratories retraced this ancient technique from original pieces, and used it to form new surfaces with a timeless beauty.

Khroma, new life.

The new porcelain stoneware surfaces reflect every step in the design process: the finely calculated particle size, the incredible authenticity and the tactile depth.

RAMMED SURFACE

PLAIN SURFACE

Saturated, tactile colours.

- 1_ Fango
- 2_ Talco
- 3_ Ottanio
- 4_ Avorio
- 5_ Moro
- 6_ Argilla
- 7_ Corda

The Khroma colour assortment is derived from nature and offers a sophisticated range of neutral shades ideal for mixing and matching. The pigments are attractively uniform yet also vibrant, rich in all the original beauty of unfired clay.

1_

Rammed, an ancient technique.

2_

Rammed is inspired by an ancient building method which uses different types of clay compressed (rammed) by hand into wooden moulds and left to dry in the sun. The compacted layers are clearly visible, with a rich texture that reveals the grain, the colour strata and the many variations in shade.
