

Transforming
spaces, elevating
experiences

Glow Collection

GLOW

Getting the best version of yourself is possible, in the same way you can transform the spaces around you.

We propose a trendy and attractive colour palette, with translucent shine and extreme luminosity to dazzle you.

Anything else? Also contemporary decors with subtle geometries tone on tone to dress with.

Be bold and glow up!

BEFORE INSTALLING THE PRODUCT

The surface where the product is being installed must be clean and level.
It is recommended that the layout of the product is prepared before the final installation.
Make sure you choose an adhesive apt for the area where the product is being installed.
For installation on porous surfaces we recommend: Kerakoll Special® Eco, and for Non-porous surfaces: Kerakoll serie H40® Eco.

The choice of quality grouting mortar is crucial.
We recommend Kerakoll Fugabella® Color.
(www.kerakoll.com)

TO ENHANCE YOUR WOW PRODUCT

In order to obtain the maximum WOW effect, use 1 mm - 0.039 in spacers between the tiles to maintain an even installation over the whole surface.
The colour of the grout should be as close as possible to the colour of your product.
Once the area has been grouted, and before the grout dries, remove any excess material with a damp sponge.

MAINTENANCE

Maintenance free. Easy and practical to care for, due to the high standard of technical characteristics in each WOW ceramic product.
Avoid abrasive or acidic cleaning products.
It is recommended to clean with clear water.
